SUMMARY:

Aaron sent the following request:

Hi Mary,

We're having a town hall meeting in Waukegan at 2 p.m. on Feb. 7. Before we do the general Q&A with Congressman Kirk, we typically have one or two presentations regarding hot issues in that area.

Would it be possible to get an EPA representative to provide an update (10 minutes max) on the harbor? Can't imagine we'd need anything different than the usual presentations that Kevin does on a regular basis.

The EPA speaker would be near the top of the program. Location is below.

Waukegan Public Library

128 North County Street
Waukegan, IL 60085

Please let me know if that is a possibility. I'd be more than happy to address any questions you may have.

Best,

Aaron

RESPONSE:

1/29: After checking with Kevin I sent the following reply:

Hi Aaron,

I checked with Kevin Adler and he is available to provide an update on Waukegan Harbor at the town hall meeting on February 7. You can work with Kevin on the specific details. Thanks.
